| 0 of 0 people found the following review helpful. | Henrik Lund is the world leading expert in creating a society based on 100% renewable energy | By mlwinkle | Henrik Lund and his research group at Aalborg University in Denmark have been leaders in making the national energy systems in Denmark 100% renewable. This accessible book lays out the computer-based model (EnergyPlan) that is the basis for modeling the national energy system | | "Overall it is a fascinating and challenging read, linking political and technical insights in a uniquely Danish way, but hopefully offering the rest of us a way forward too." --Energy Research & Social Science, September 2014 | "The technical analysis,

In this new edition of *Renewable Energy Systems*, globally recognized renewable energy researcher and professor, Henrik Lund, sets forth a straightforward, comprehensive methodology for comparing different energy systems' abilities to integrate fluctuating and intermittent renewable energy sources. The book does this by presenting an energy system analysis methodology.

The book provides the results of more than fifteen comprehensive energy
